

Eze Castle Integration (ECI) is the leading full service IT consulting and implementation firm providing complete technology solutions to elite financial services companies, such as hedge funds, private equity firms and other specialty investment management firms. Already, more than 450 hedge fund companies - managing more than \$200 billion in assets - rely on Eze Castle Integration to be their "virtual CTO" and single source of IT and telecommunications infrastructure To learn more about ECI, visit us at www.eci.com.

We are currently seeking a **Storage Engineer for NetApp systems**. Our business is fast-growing and profitable, and the successful candidate will provide an important and valuable service to our clients.

Responsibilities

- Diagnose and resolve problems in multiple storage environments, coordinating with coworkers and vendors as necessary to facilitate maximum availability of client applications in financial and other mission critical environments
- Deploy storage environments for new and existing customers based upon ECI's proposed solutions
- Perform capacity planning and reporting to ensure efficient use of storage
- Closely monitor server storage performance and utilization, identify problems and recommend/implement solutions
- Maintain backup/recovery environments
- Implement and document recovery procedures
- Support recovery in the event of systems failure or disaster
- Provide post-installation training and technical support to clients and coworkers
- Project work will require evening and weekend commitments, some travel

Knowledge Base

- Comprehensive understanding of Microsoft computing environments. AD, Exchange, SQL; and ECI's standards for deploying these technologies
- Solid understanding of networking and distributed computing concepts, including principles of network-routing client/server applications
- Knowledge of Distributed File Systems (DFS) beneficial
- Prior experience or familiarity with storage products is desirable

Skill Set

- Strong client focus and management of client expectations
- Excellent oral and written communication skills
- Excellent teamwork skills
- Ability to present and explain technical information to diverse audiences
- Demonstrated ability to self manage and complete assigned projects
- Strong organization and project management skills

- Ability to weigh various suggested technical solutions against the original business needs and choose the most appropriate solution

Experience

- At least one year experience at ECI as a service engineer
- Demonstrated ability to complete installations of new client environments with minimal supervision

We offer competitive salaries and our generous benefits package includes health and dental insurance at great employee rates (Harvard Pilgrim in alliance with United Healthcare PPO for \$1/month!), life insurance, short/long term disability, paid time off and holidays, a 401k plan and performance incentives. Come work for the leader in cutting edge technology and see for yourself how we value our clients and employees alike.

ECI is an Equal Opportunity Employer.
