

Eze Managed Suites

Eze Castle Integration's fully managed suites in New York City's Midtown bundle premier technology and business services with premium real estate to allow hedge funds and investment firms to become operational quickly and easily. Designed specifically to support the business and technology requirements of hedge funds and investment firms, Eze Managed Suites deliver simplicity, flexibility and convenience so clients can focus on their first priority – superior asset management and growth.

Whether launching a new fund, expanding operations to New York or seeking permanent fully-managed space, Eze Castle's suites include the services necessary to meet a firm's short-term and long-term requirements. Plus, Eze Managed Suites are available in a variety of sizes.

Eze Managed Suites are fully inclusive of:

- ◆ Business Support
- ◆ Telecommunications
- ◆ Technology Services

Business Support

Eze Managed Suites offer a prestigious Fifth Avenue address with professional offices, well-appointed conference and meeting rooms, and two kitchens with complete amenities.

A reliable receptionist and administrative support personnel are available to handle activities including meeting facilitation and reservations.

Telecommunications

Telephony services come standard with Eze Managed Suites. Clients receive unlimited local and domestic long distance calling as well as use of an Avaya telephone system featuring:

- ◆ Superior high fidelity audio capabilities
- ◆ Modular messaging which combines a user's voice, email and fax messages for streamlined message notification
- ◆ Voicemail and conference calling
- ◆ Multiple call appearances and one-button access to frequently used features

Technology Services

Eze Managed Suites boast a state-of-the-art technology environment supported by a first-class IT team that is on-site and available 24x7x365 to quickly resolve technology issues. To avoid significant technology capital expenditures, clients can utilize Eze Castle's complete IT infrastructure to run their fund and become operational quickly and easily.

Alternatively, for clients that wish to leverage hardware their firm already owns, Eze Castle co-location space is available and professionally managed by seasoned engineers.

Technology Services Include:

- ◆ High-speed and highly available Internet access over Eze Castle's ECINet
- ◆ Microsoft Exchange e-mail services as well as use of Blackberry Enterprise Server (BES)
- ◆ Dedicated space on a highly-secure file server for document access and storage
- ◆ Full disaster recovery protection and regular tape backups for continuous availability of critical data and applications
- ◆ RSA SecurID "tokens" for every user, enabling two-factor authentication for premium security
- ◆ Connections to leading market data vendors
- ◆ Trial use of third party front, middle and back-office services and applications

Additional Premium Technology Services

The following add-on services are available to clients in the Eze Managed Suites:

Eze Archiving: A comprehensive, SEC-compliant solution that provides secure and efficient archival of all e-mail and instant messages including Bloomberg Mail and Bloomberg IM

Technology Procurement: Use of Eze Castle's in-house purchasing department to ensure competitive pricing, order accuracy and speedy purchasing of products including desktops, workstations, laptops and mobile devices

Advanced Voice Communication Solutions: Access and management of trading communication technology including ringdowns

Hedge Fund Applications & Services

Eze Castle Integration understands that hedge funds and investment firms require seamless access to an array of industry-specific applications and services. We also know that the solution landscape is broad and complex.

To simplify the evaluation, selection and deployment process for Eze Managed Suites clients, Eze Castle has teamed with select third party vendors to deliver streamlined access to EzeApproved applications and services. EzeApproved status denotes reliability, stability and quality.

Supporting each step of the application selection process, Eze Managed Suites clients receive:

- ◆ Trial use of third party services and applications to ensure the solution matches their business processes and requirements;
- ◆ Guidance and consultation following the evaluation period from Eze Castle experts who understand the nuances of each application or service; and
- ◆ Rapid application deployment and support throughout the processes. Eze Managed Suites offer direct access to Thomson Reuters and Capital IQ services.
