

Network & Security Consulting

ECI offers premier network configuration and security services to align your network with your business goals. We utilize proven methodologies and industry best practices in our network designs to ensure optimal performance, availability and security around the clock. We will assess your present network infrastructure, discuss current and emerging needs, then formulate a cost-effective strategy and solution to ensure minimal downtime and disruption.

ECI knows solid network security doesn't always rely on expensive equipment or sophisticated software, but smart network configuration and sound practices. Our methods ensure your business is kept secure in the most cost-effective manner.

RANGE OF SERVICES

- Topology design and assessment
- Switch/router/firewall implementation
- VPN setup
- Vulnerability assessment
- Intrusion detection
- End-to-end multi-vendor network cabling
